Ambiente Lights

Count	Type	Mode	Use	Patch
32	Mac 300 Wash	13 CH	Ambiente	B-1, B-14, ..., B-404
1	Flat LED PAR	4 CH (RGBA)	BAR-Light	B-417

Notes  
**IMPORTANT:** as you will notice - our dimmer is very old so are the very long cables powering our Conventionals. THEREFORE PLEASE RESPECT AND SET THE DIMMERLIMITS 85% (DMX: 215) --> there is no possibility to do so on the Dimmer directly

please contact the local light technician before using Haze or Fog machines!

Ambiente Lights may be used during the show, have to be on during Doors, Breaks and after the Show.

There are no filters for the conventionals available

If you are nice to our Equipment - so it will be to you and following LDs. Thank you :)

Lighting Set - SimmCity/Vienna
